

Day 5: IP Geolocation, ASN Mapping & Telephony OSINT Integration

Key Milestone: Threat Intelligence Enrichment & Telephony OSINT

Sprint Focus: Execution of core deliverables for Day 5 across AI/NLP, Header Forensics, IOC Extraction, Graph Correlation, Case Management, and UI Integration.

Daily Deliverables: Geo-ASN Enrichment Service, DMARC Alignment Engine, Global Threat Map Component.

Individual Team Member Task Breakdown & Contributions

Team Member & Lead Role	Domain & Ownership Area	Tasks Executed & Deliverables on Day 5
Muniswami.Y AI / NLP Lead	Explainable AI, Intent & Phishing Detection, Social Engineering signals	Implemented Bayesian Content Risk Scorer computing statistical word weights and adversarial token manipulation flags.
Jeevan reddy.G Header & Forensics Lead	Email header analysis, SPF/DKIM/DMARC, Mail path reconstruction, Timestamp analysis	Built DMARC policy evaluator inspecting alignment between RFC 5322 From and RFC 5321 Return-Path headers (`p=reject`, `p=quarantine`).
Lahari.K IOC & Infrastructure Lead	URL, Domain, IP extraction, Geolocation, ASN/ISP mapping, Malicious indicator detection	Integrated IP-API, MaxMind GeoLite, and BGP routing lookups to map originating ISP, Autonomous System Number (ASN), and country.
Hemanth.P Graph & Campaign Intelligence Lead	Attack Relationship Graph, Similarity detection, Campaign grouping & correlation	Developed Campaign Detection Engine: clustering recurring email attacks into unified campaign IDs based on cryptographic fingerprinting.
Abbas.N Risk, Case & Response Lead	Dynamic Threat Score engine, Automatic Forensic Case creation, Recommended Response actions	Added evidence packaging module generating cryptographic SHA-256 hashes for all raw email headers, body texts, and attachment metadata.
Moulaanbee.N Frontend + Assistant + Simulator Lead	Dashboard, Visualizations (Graph, Map, Timeline), AI Chatbot, Email Threat Simulator, Overall UI/UX	Built the Geolocation World Map view rendering suspect origin coordinates, ISP details, and routing hops.

Integration, Verification & Quality Assessment

Cross-Module Integration:	Enriched email payloads with IP geo-coordinates and displayed real-time origin mapping on the Cockpit dashboard.
Quality Assurance Status:	All code unit tests and interface contracts for Day 5 verified clean. Git commit pushed with zero blocking errors.
