

Day 11: AI Cybersecurity Assistant (Chatbot) & Email Threat Simulator

Key Milestone: Interactive AI Assistant & Forensic Sandbox Simulator

Sprint Focus: Execution of core deliverables for Day 11 across AI/NLP, Header Forensics, IOC Extraction, Graph Correlation, Case Management, and UI Integration.

Daily Deliverables: AI Security Chatbot Module, Threat Simulator Sandbox, Interactive Playbook Engine.

Individual Team Member Task Breakdown & Contributions

Team Member & Lead Role	Domain & Ownership Area	Tasks Executed & Deliverables on Day 11
Muniswami.Y AI / NLP Lead	Explainable AI, Intent & Phishing Detection, Social Engineering signals	Integrated generative AI chat completions with custom cybersecurity system prompts grounded strictly in active case telemetry.
Jeevan reddy.G Header & Forensics Lead	Email header analysis, SPF/DKIM/DMARC, Mail path reconstruction, Timestamp analysis	Built simulated attack generators (CEO Fraud, Fake Invoice, Ransomware, Credential Harvesting) with randomized header topologies.
Lahari.K IOC & Infrastructure Lead	URL, Domain, IP extraction, Geolocation, ASN/ISP mapping, Malicious indicator detection	Created synthetic IOC generator to safely simulate malicious domains, fast-flux IPs, and lookalike brand infrastructures.
Hemanth.P Graph & Campaign Intelligence Lead	Attack Relationship Graph, Similarity detection, Campaign grouping & correlation	Implemented real-time graph node highlighting triggered by user queries in the AI Assistant chatbot.
Abbas.N Risk, Case & Response Lead	Dynamic Threat Score engine, Automatic Forensic Case creation, Recommended Response actions	Created interactive mitigation playbook engine providing step-by-step containment checklists based on incident severity.
Moulaanbee.N Frontend + Assistant + Simulator Lead	Dashboard, Visualizations (Graph, Map, Timeline), AI Chatbot, Email Threat Simulator, Overall UI/UX	Built the full-screen Threat Simulator sandbox and collapsible floating AI Cybersecurity Assistant chat drawer.

Integration, Verification & Quality Assessment

Cross-Module Integration:	Tested AI Chatbot querying live case context: verified zero hallucinations and exact grounding in active header evidence.
Quality Assurance Status:	All code unit tests and interface contracts for Day 11 verified clean. Git commit pushed with zero blocking errors.
